# Ditul Roy

## Junior Frontend developer

## About me

I have developed fundamental skills on HTML, CSS, JavaScript and some of their framework relationships. I feel comfortable with them and am interested in working on this topic. Again very interested in implementing new features

## Project

### 1. Food house

[Live-site](#) | [client](#) | [server](#)

- In this website I will try to implement for the restaurant about the chef and some items. Here are some of the chiefs in general and the items they made.
- **Technology:**

**FrontEnd:** html5 | tailwindCss | daisyUI | javascript, react-router-do  
| react icons | sweetalert2 | react-rating

**BackEnd:** nodejs | express.js | mongodb | jwt.

**Tools:** vscode | git and github | firebase

### 2.Kids zone

[Live-site](#) | [client](#) | [server](#)

- This website it was created some toy cars for kids. There are some toy cars for toy marketplace. This website create only for kids. Because there all toy is kids related.
- **Technology:**

**FrontEnd:** html5 | tailwindCss | daisyUI | javascript, react-router-do  
| react icons | sweetalert2

**BackEnd:** nodejs | express.js | mongodb.

**Tools:** vscode | git and github | firebase

### 3. stepUp dance club

[Live-site](#) | [client](#) | [server](#)

- This website site i try to make a dance learning school, in this website for only dance related work. There have three categories of use. Its only learning dances related website.
- **Technology:**

**FrontEnd:** html5 | tailwindCss | daisyUI | javascript, react-router-do  
| react icons | sweetalert2 | react hook-form | react-query | stipe js

**BackEnd:** nodejs | express.js | mongodb.

**Tools:** vscode | git and github | firebase
